

ABOUT RLI

WHAT WE DO

At RLI Corp., we are problem solvers. We are innovative in our approach by selecting underserved or unserved specialities and developing creative solutions to meet those unfulfilled needs. We build relationships with our partners and distribute our commercial and personal insurance products solely through an exclusive network of appointed wholesale brokers and program administrators.

PROVEN FINANCIAL STRENGTH

RLI has a strong balance sheet and consistently delivers profits to our shareholders. In 2011, our net operating cash flow totaled \$118.0 million, our combined ratio was 78.4, and we generated underwriting profitability for the 16th consecutive year.

OUR REMARKABLE PEOPLE. Our people are experts at building relationships that last with our brokers and customers by providing outstanding service and creating ideal coverages with competitive premiums.

OUR UNDERWRITING FOCUS. We seek underserved niches in the marketplace and provide coverages that meet very specific needs.

OUR ENTREPRENEURIAL CULTURE. We recruit the most talented people in the business and then give them freedom to try new things; to adapt and move quickly; to be nimble and flexible; and to explore new business opportunities.

REASONS TO DO BUSINESS WITH US
